

## Vocational training

# Technician for the Erection of Wind Energy Plants

### **Course dates**

On request  
440 training hours

### **Location of training**

Dr.-Wiegand-Strasse  
Building 94  
28237 Bremen  
(At the premises of ArcelorMittal GmbH)

### **Contact**

### **Company location**

edWin GmbH  
Hermann-Prüser-Strasse 4  
28237 Bremen

### **Training centre location**

Dr.-Wiegand-Strasse 94  
28237 Bremen  
(At the premises of ArcelorMittal GmbH)

### **Contact person**

Heike Jung  
Tel.: +49 (0) 421 / 620 421 19  
Fax: +49 (0) 421 / 620 421 22  
jung@edwin-academy.de

### **Enrolment fees**

Upon request

### **Response card**

(Please detach and return in a window envelope or fax to +49 (0) 421 - 620 421 22)

edWin GmbH  
Hermann-Prüser-Strasse 4  
28237 Bremen  
Germany

### Course topics

- ▶ Erection of wind turbines energy plants
- ▶ Electrical Engineering
- ▶ Electromechanical specialist qualification (EFT)
- ▶ Hydraulics
- ▶ Mechanics
- ▶ Wind turbine technology
- ▶ Rotor blade construction
- ▶ Composite fibre plastics
- ▶ Materials science and corrosion protection
- ▶ Connectors (screws, bolts)
- ▶ First aid in the wind energy industry
- ▶ PPE against falls
- ▶ English terminology in the wind energy industry
- ▶ SCC work safety standards
- ▶ Hooking and lifting of heavy loads
- ▶ General knowledge of ladders
- ▶ Forklift operating licence

### Technician for the Erection of Wind Energy Plants

Germany continues to face a large shortage of specialist employees in all areas of the wind energy branch. For this reason, the industry is expected to create 30,000 new jobs by 2012.

As the transition to green technology is just beginning to shift into high gear, the demand for wind-turbine installation technicians will continue to grow in coming years. Take advantage of this opportunity to work in an industry with a bright future!

If you're interested in renewable energy, enjoy working on construction sites, and would like to participate in projects around the globe, our vocational training course is the right place to get started.

You should be able to fulfil the following **requirements:**

- ▶ Apprenticeship certificate in the electronics or metal working industries
- ▶ Medical fitness
- ▶ Willingness to travel
- ▶ Driving licence and English skills desired
