Service Technician for Wind Energy Plants

The wind energy industry currently employs more than 80,000 people in Germany alone, and this figure is expected to rise to 120,000 by 2020.

As a wind-turbine service technician you'll engage in a wide range of activities in the servicing, maintenance, and repair of wind turbines – in Germany, across Europe and worldwide. Get your start in an industry with a bright future!

You should be able to fulfil the following **requirements:**

- ▶ Apprenticeship diploma in the electronics or metal working industries
- ▶ At least one year of professional experience
- ▶ Medical fitness
- ▶ Willingness to travel
- ▶ Driving licence and English skills desired
